# ProMove Car Control

## **What?**

*The "Car Control" training is the mother of all driver skills programmes. It is much more than the "skid pan training" it once was. Obviously, you will still learn how to dodge on a slippery road surface. Most importantly, you will learn how to avoid accidents by adapting your driving style.*

*Your instructor, who will always remain present in the vehicle to coach you, will teach you a good steer and watch technique. After all, these form the basis of good driver skills.*

*Introduction (15 minutes)*

*Practical driver skills training (3 hours)*

*debriefing and evaluation (15 minutes)*

# Skylimit Events Drift & Slalom day

## What?

Drifting is the ultimate version of Car Control during which you keep the balance of the car using your gas pedal. Take your place behind the wheel of our BMW 325i and our instructors will teach you the do's and don'ts of drifting. Drifting forms the basis of becoming a safe driver or it can serve as proof to show of what you are capable behind a wheel. Finish your day with a slalom on time whereby the fastest one will be crowned.

5 to 8 people are provided per car.
